

ACADEMIC SCHOLARSHIPS

Each year when we award Phi Mu Foundation scholarships, we're flooded with letters from recipients that remind us of the critical role these scholarships play in women receiving their education. Whether it's to help an undergraduate woman cut back on her hours at work this semester or to help a medical student reduce the amount of loans she'll have to take out that semester, Phi Mu Foundation scholarships are helping women reach their highest potential.

The Foundation awarded 139 Phi Mu women with \$152,250 in academic scholarships in 2020-21 to pursue their undergraduate and graduate-level education.

“Over my college experience, Phi Mu has pushed me to grow in profound ways both inside and outside of the classroom; my sisters in Phi Mu have been my fiercest advocates and supporters. Attending medical school is the biggest achievement of my life, yet also poses itself as the largest financial burden I have ever experienced. This scholarship means the world to me as it pushes me to achieve and exceed my goals, while also recognizing and encouraging my hard work and dedication to my future career. I would like to specifically send my gratitude to those members and friends who have donated to Phi Mu Foundation to help support sisters like me in their academic journeys. I am beyond thankful for you all and cannot wait to make you all proud as I work towards achieving my M.D.”
